Dear Charleston Area Ladies of Tennis Association,

First, let me just say, thank you!

Your recent donation of \$5000 means that you understand just how valuable tennis can be to a child or adult with cognitive and/or physical challenges.

But let me tell you what tennis means to our athletes. Not only do the athletes learn how to play tennis and compete in all different situations; they learn so much more. They learn teamwork, sportsmanship and respect for others. These skills are not only useful in the sport of tennis but in other facets of life, like education, the workplace and respect for others.

Donors like you make our goal of playing tennis a success to athletes who could possibly not afford such a life-enhancing opportunity.

Again, thank you! We love your support.

Best Always,

Karen Lockerman
